DEVELOPER ADVOCATE • DEVELOPER RELATIONS • COMMUNITY & ECOSYSTEM

simarpreetsingh.019@gmail.com • +91 93152 61718 • India (Remote)

LinkedIn | GitHub | YouTube | X / Twitter | Medium | Portfolio

PROFILE

Developer Advocate with **3+ years** in developer relations, open-source community building, and technical education. Led developer programs, workshops, meetups, and hackathons, mentoring **1,000+ developers**; created technical content (blogs, tutorials, video walkthroughs), demos, and proof-of-concepts; and turned community feedback into measurable product improvements. Comfortable leading technical conversations with engineers, customers, partners, and business stakeholders.

EXPERIENCE

Partnership & Ecosystem Lead

Remote, India | Jun 2026 – Oct 2026

Soulverse • Decentralized Identity & Trust Infrastructure

- Drove **ecosystem partnerships** with protocols, DAOs, and **developer networks**, covering co-marketing campaigns, joint community programs, and ecosystem activation.
- Grew the **community** across Discord, Telegram, X, LinkedIn, and Farcaster; hosted **AMAs, webinars, X Spaces, and workshops**, and represented Soulverse at industry events and conferences.
- Built partnerships with **policy-making and policy research organisations** to represent Soulverse at relevant events and drive its narrative on decentralized identity and trust.

Founder & Independent Consultant

Remote, India | Apr 2025 – Jun 2026

Web3Panjab

- Built and shipped two production frontend products for paying clients (**SuiSips**, **YinYang v1**) using AI-assisted development workflows (v0, Cursor, Claude), while running developer events for ecosystem partners.
- Generated **\$9K revenue at 44% profit** across products and events in 8 months.
- Led a **40+ event Pan-India developer meetup series** (May 2026, **\$20K+ budget**) as lead host and program manager.

Lead Developer Relations

Remote, India | Oct 2022 – Mar 2025

Tezos India • Tezos L1 & Etherlink (EVM L2)

- Owned **developer relations** for Tezos L1 in India; later led **developer advocacy** for Etherlink (EVM L2), expanding scope across developer onboarding, ecosystem programs, and technical enablement.
- Ran flagship developer programs (**TezConnect, TezDay, Buildercamps**), meetups, and hackathons with **80+ partners**; designed certification-style learning tracks and co-created a blockchain curriculum with the University of the Philippines.
- Delivered **technical presentations, hands-on coding workshops, and live POC demos** for startups, universities, and hackathon teams, including architecture reviews; mentored **1,000+ developers**.
- Provided **technical support and troubleshooting** to a global developer community on **Discord and Telegram** during hackathons, events, and product builds.
- Built production-grade dApps and **open-source starter kits** (React, Ethers.js, Solidity, SmartPy/Python) with READMEs and quick-start **documentation**, demonstrating wallet authentication, EVM compatibility, and contract integration.
- Shared community **feedback and feature requests** with wallet, explorer, and protocol **engineering teams** to inform the **product roadmap** (Naan Wallet: **24% activation lift**); open-source starter kits and technical content increased new project creation by **15%**.

PROJECTS & TECHNICAL CONTENT

- **JSON API Visualiser** — Interactive graph view of any REST API response; now converting it into a **self-hostable app** with **Docker Compose**, instrumented with **OpenTelemetry** and sending logs, metrics, and traces to **OpenObserve**. *Next.js • OTel • OpenObserve*
- **Miden SDK Simulator** — Interactive demo of anonymous voting on Miden (Polygon's ZK rollup SDK), built with no prior Miden experience to show how a working demo makes any new SDK learnable. *React • Miden SDK • Vercel*
- **SuiSips** — Proposal-tracking and community platform for the Sui ecosystem. *Next.js • Tailwind CSS*
- **YouTube & Medium** — Technical video walkthroughs (including setting up and running containerized projects with **Docker**), tutorials, and blog posts. *Video • Tutorials • Blogs*

SKILLS

DevRel & Community	Developer Onboarding, Developer Support, Technical Presentations, Hands-on Workshops & Training, Live Demos & POCs, Hackathons & Meetups, Technical Content, Community Growth, Ecosystem Partnerships, Developer Feedback to Product
Languages	Python, Java, JavaScript, Solidity, C++
Frameworks & Tools	React.js, Next.js, REST APIs, Git/GitHub, Vercel, Cursor, Claude, LLM APIs
Observability & DevOps	Docker, Docker Compose, OpenTelemetry, OpenObserve

EDUCATION

B.Tech, Computer Science & Engineering

Delhi, India | 2018 – 2022

Guru Gobind Singh Indraprastha University
